

# **Contention**

## **Mxpx**

This is a fight, broken bottles, bloody walls  
There was a time, when a fist could solve it out  
But those days are gone along with many murdered lives  
    Hey, contention  
    Hey, it's killing us  
    This is a war, complete with a body count  
    This ain't the past, this ain't the future, this is now

When will we stand up and refuse to be put down?  
    Hey, contention  
    Hey, it's killing us  
    Hey, contention  
    Hey, it's killing us
