# Broken

## Green Apple Quick Step

Swing your head into motion
Raise your arms to the sky
Watch the clouds roll on by
Enemies of wasted timeDemolish everything
Lose yourself and follow me
Kick yourself if you can
Spinning 'round into my handLet the world
Bury me
Take a chance
EternityWhere's the sun
It's broken down
Where's the sun
It's broken downFeeling like an acrobat
Mosquito hollows on the way
Stop and say goodbye to me
Clip his wings and fly awayLet the world
Bury me
Take a chance
EternityWhere's the sun
It's broken down
Where's the sun
It's broken downLet the world
Bury me
Take a chance
EternityWhere's the sun
It's broken down
Where's the sun
It's broken down
