Cherish

Brian Mcknight

Thinkin' back in time
Someone said that love is blind
But they were wrong
You just choose to not see
When it's right before your eyes
You'd rather compromise and give it all
Then it don't turn out
The way it's supposed to be
Time and time again, you disappoint
When she believes
Just do your best
And give her what she needs
And cherish her love
Show her she's right
Where she belongs
Take care of her heart
Before she's gone
Cherish her love
It might be hard to conceive
You gotta see the forest
Despite the trees
Before it all burns down
Not tellin' ya nothing
You don't know
But she'll let you have your fun
But when a woman's done, she's done
And then she'll go
Just when you're needin' her the most
Time and time again, you disappoint
When she believes, oh yeah
Do all you can
To give her what she needs

Cherish her love
Show her she's right
Where she belongs
Take care of her heart
Before she's gone
Cherish her love

And if you care about the weather
Keep her safe and warm
Let nothing in between stand in your way
They say it's calm inside
The eye of the storm
Together come, whatever comes what may
Just cherish her love
Show her she's right
Where she belongs
Take care of her heart
Before she's gone
Cherish her love
Show her she's right
Where she belongs
Take care of her heart
Before she's gone
Cherish her love
Show her she's right
Where she belongs
Take care of her heart
Before she's gone
Cherish her love
Cherish her love
Cherish her love
Cherish her love
Cherish her love
