

# Hear Say

## ashleigh stone

All I ever wanted  
Was to write for the people  
And tap into something, they've been needing to hear  
"Cause this world is such a cacophony of sensations  
Sometimes I get lost in the way I feel

And oh, at night, when the people rise  
Is it me? Is it you? Is it something in our eyes?  
We are young and we are old  
But the heavens guard our souls  
The heavens guard our souls  
The heavens guard our souls

And are we all just robots standin' in a line  
Waiting for our time to come?  
Are we all just robots standin' in a line  
Waiting for our time to come?

And oh, at night, when the people rise  
Is it me? Is it you? Is it something in our eyes?  
We are young and we are old  
But the heavens guard our souls  
The heavens guard our souls  
The heavens guard our souls

Its all hear say  
It all hear say

And oh, at night, when the people rise  
Is it me? Is it you? Is it something in our eyes?  
We are young and we are old  
But the heavens guard our souls  
The heavens guard our souls  
The heavens guard our souls
