

# My Somebody

## Gloriana

Is it cool if I start up next to you  
Maybe share a round or two  
It looks like the band's about to start  
What's your name  
Yeah, I like the atmosphere in this place  
It's like they always know the right song to play  
This right here's my favorite part  
Might be a shot in the dark If you're looking for somebody  
Somebody who wants you  
Looking for somebody  
Somebody who wants you  
Girl, I could be wrong  
But I bet on you and me  
I could be yours, could be my somebody And I know, it's always good to take it slow  
We can make it up as we go  
And we ain't got no other plans  
So how's about that dance If you're looking for somebody  
Somebody who wants you  
Looking for somebody  
Somebody who wants you  
Girl, I could be wrong  
But I bet on you and me  
I could be yours, could be my somebody Girl, I like this conversation  
We can talk all night long  
And go somewhere and not talk it all  
Know it all, yeah If you're looking for somebody  
Somebody who wants you  
Looking for somebody  
Somebody who wants you  
Girl, I could be wrong  
But I bet on you and me  
I could be yours, could be my somebody
