

# Say You'll Never Leave

## Saves the Day

Hammer nails into my eyes  
now I'll never notice  
when you're staring at the ground  
wishing that you didn't know  
what I'm really thinking  
you won't even look at me now Say you'll never leave, please  
this war inside my mind is killing me See myself in shredded skin  
sew my lips together  
so I won't have to say a word  
what I never meant to say  
I wish I could erase it  
make it right again some day Say you'll never leave, please  
this war inside my mind is killing me I'll cut out my throat and I'll eat it raw  
and drown in the blood as it fills my lungs Say you'll never leave, please  
this war inside my mind is killing me  
it's killing me  
it's killing me
