

Next to You

Jordin Sparks

Two o'clock and I wish that I was sleeping
You're in my head like a song on the radio
All I know is I gotta get next to you
Yeah, I gotta get next to you Sitting here turning minutes into hours
To find the nerve just to call you on the telephone
'Cause you don't know that I gotta get next to you Maybe we're friends and maybe we're more
Maybe it's just my imagination
But I see you stare just a little too long
And it makes me start to wonder
So baby, call me crazy but I think you feel it too
Maybe I, maybe I, just gotta get next to you
I gotta get next to you Asked around and I heard that you were talking
Told my girl that you thought I was out of your league
What a fool, I gotta get next to you, oh yeah It's five in the morning and I can't go to sleep
'Cause I wish, yeah I wish you knew what you mean to me
Baby, let's get together and end this mystery Maybe we're friends and maybe we're more
Maybe it's just my imagination
But I see you stare just a little too long
And it makes me start to wonder
So baby, call me crazy but I think you feel it too
Maybe I, maybe I, just gotta get next to you Watcha gotta say? Watcha gotta do?
How you get the one you want to wanna get next to you?
Watcha gotta say? Watcha gotta do?
How you get the one you want to wanna get next to you? Watcha gotta say? Watcha gotta do?
How you get the one you want to wanna get next to you?
Watcha gotta say? Watcha gotta do?
How you get the one you want to wanna get next to you, yeah yeah
To wanna get next to you? Maybe we're friends, maybe we're more
And maybe it's just my imagination
But I see you stare just a little too long
And it makes me start to wonder
So baby, call me crazy but I think you feel it too
So baby, call me crazy but I know you feel it too
Maybe I, maybe I, just gotta get next to you
Next to you, I gotta get next to you
