

Negative Space

Spineshank

I don't have what you need
You don't know but I still see
The situation brings me down See wasted days inside me
No changing ways becoming
Falling away from nothing
Sobering days, I'm dying now I don't care what you want
You don't know I'm already gone
The situation brings me down See wasted days inside me
No changing ways becoming
Falling away from nothing
Sobering days, I'm dying now What I feel everyday
Keeps everything nice and cold
I'm not sure what you need It's not me anymore
All of our memories are just a thought away
Get the fuck away from me See wasted days inside me
No changing ways becoming
Falling away from nothing
Sobering days I'm dying now See wasted days inside me
No changing ways becoming
Falling away from nothing
Sobering days I'm dying now
