The Cross

Samael

the wind of spring blows in heaven
in the land of gold in the land of god
manipulate the holiness
maculate our loneliness
shining between two worlds
learning to win and hold
fraction of monopoly
tension of opposite's pole
give or take what has to move
for I will fight for my country
Eldest to the one and I
harvest of love and light
armless - amnestyNorth south east and west the cross is sent over the lands
keep draining what was and will be in our time in our life
pilot soul takes you on the ride, no rise no fall for HumankindAmong the best survive or leave
paranoid night so hard to relieve
would you betray innovation
in the name of tradition
hopeless - amnesiaNorth south east and west the cross is sent over the lands
keep draining what was and will be in our time in our life
pilot soul takes you on the ride, no rise no fall for HumankindHelvetia gloria still smile behind the shade of shame
cross your faith, join your hands tomorrow holds another day
Eldest to the one and I
harvest of love and light
dictated by war and hate
supported by those who hide
it lives in your mind
whatever you may say
whoever you may pray
Christianity worldwide
