# Die With Your Boots On

## Metal Museum

Yeah, another prophet of disaster
Who says this ship is lost
Another prophet of disaster
Leaving you to count the costTaunting us with visions
Afflicting us with fear
Predicting war for millions
In the hope that one appearsNo point askin', when it is
No point askin', who's to go
No point askin', what's the game
No point askin', who's to blame'Cos, if you're gonna die
(If you're gonna die)
If you're gonna die, die
(If you're gonna die)
If you're gonna die
(If you're gonna die)
If you're gonna dieIf you're gonna die, die with your boots on
If you're gonna try, well, stick around
Gonna cry, just move along
If you're gonna die, you're gonna dieGonna die, die with your boots on
If you're gonna try, well, stick around
Gonna cry, just move along
If you're gonna die, you're gonna die13, the beast is rising
The Frenchman did surmise
Through earthquakes and starvation
The warlord will ariseTerror, death, destruction
Pour from the eastern sands
But the truth of all predictions
Is always in your handsNo point askin', when it is
No point askin', who's to go
No point askin', what's the game
No point askin', who's to blame"Cos, if you're gonna die
(If you're gonna die)
(If you're gonna die)
If you're gonna die
(If you're gonna die)
If you're gonna dieIf you're gonna die, die with your boots on
If you're gonna try, well, stick around
Gonna cry, just move along
If you're gonna die, you're gonna dieGonna die, ha ha, die with your boots on

If you're gonna try, well, stick around
Gonna cry, just move along
If you're gonna die, you're gonna dieThey die, when they found sun
Yes, they die
They die, they die, when they found sun
We die, we die, we die, we die, we die, we dieNo point askin', when it is
No point askin', who's to go
No point askin', what's the game
No point askin', who's to blame'Cos, if you're gonna die
(If you're gonna die)
(If you're gonna die)
If you're gonna die
(If you're gonna die)
If you're gonna dieIf you're gonna die, die with your boots on
If you're gonna try, try and just stick around
Gonna cry, just move along
If you're gonna die, you're gonna dieGonna die, die with your boots on
If you're gonna try, well, stick around
Gonna cry, just move along
If you're gonna die, die
