Dead On Arrival

Corroded

Dead on arrival
Well that's how they pronounced him
But I'm out for survival
Oh I'm alive in this townIt took the vital injection
From that sweaty little girl child
She had the blood of conviction
I'm alive and hurtin'And they said, "Where did you go
And what did you do?"
Well what's gonna happen
When he gets shot with loveDead on arrival
They thought that nothing would save me
But I know what could break meDead on arrival
You were my death reflected
I love to tiptoe
That brought me into this townI got a vital injection
And a gun at my head man
From a thrill hit redhead
That brought me into this townWell where did you go
And what did you do?
What's gonna happen
When he gets shot with love
With love, with loveAlright sing along
Yeah, yeah, yeah
Yeah, yeah, yeahDead on arrival
Well that ain't a prediction
Fact or fiction
I'm alive in your townDon't try to shake me
Oh and don't try to break me
I know what can save me
They take the blood in her townAnd they said "Where did you go
And what did you do?"
Well, what's gonna happen
When he gets shot with love
With love, with love
