

Black Cadillac

Shinedown

I got a mind full of aggravation
I can take it if I just relax
I say a prayer for the motivation
Keep me solid so I stay on track But there's a monkey on my back
And he don't know how to act
Got me climbing up and down the walls
Now I gotta make a choice
Maybe then I can rejoice
Cause I'm sick of all the same withdrawals I got a mind full of inspiration
And I ain't living in the past no more
So feast your eyes on the big blue sky
And wave bye-bye from a long black Cadillac
Pay the price, gotta roll those dice
And wave bye-bye from a long black Cadillac [from a long black Cadillac, Cadillac] I hear the sirens of
redemption
Screaming out like never before
And there's a roadblock in every direction
But I ain't stopping because I'm in control And there's a monkey on my back
So I gotta set a trap
Cause I'm sick of all the same withdrawals I got a mind full of inspiration
And I ain't living in the past no more
So feast your eyes on the big blue sky
And wave bye-bye from a long black Cadillac
Pay the price, gotta roll those dice
And wave bye-bye from a long black Cadillac Riding high in a long black Cadillac
Riding high in a long black Cadillac
In a long black Cadillac I ain't living in the past no more
I ain't living in the past no more Screaming out like never before
Screaming out like never before [one, two, one, two, three]
So feast your eyes on the big blue sky
And wave bye-bye from a long black Cadillac
Pay the price, gotta roll those dice
And wave bye-bye from a long black Cadillac Feast your eyes on the big blue sky
Riding high in a long black Cadillac
Feast your eyes on the big blue sky
Riding high in a long black Cadillac Feast your eyes - in a long black Cadillac
Feast your eyes on the big blue sky
Riding high in a long black Cadillac Yeah
