

Can You Deal With It?

Duran Duran

There must be somebody
Who'll make love to me
Blow the rules away
And trash these yesterdays Live in sympathy
Use psychology
To find the twist in me, ahh ha
Can you deal with it? Recent inquiry
Showed no boundery
Ooo love's the only way
Can you handle it? Can you deal with it?
Can you deal with it?
Can you deal with it?
Can you deal with it? Can you deal with it, when you ain't sorry?
(Can you deal with it?)
For all that you were part of child
(Can you deal with it?)
Working up to something
I know you're up to something, yeah Can you deal with it?
Can you deal with it?
Can you deal with it?
(Somethings gotta happen, somethings gotta get me up)
Can you deal with it?
(Nothing never happens 'cause nothings ever good enough)
Can you deal with it?
(Somethings gotta happen, somethings gotta get me up)
Can you deal with it?
(Nothing never happens 'cause nothings ever good enough)
Can you deal with it?
(Somethings gotta happen, somethings gotta get me up)
Can you deal with it?
(Nothing never happens 'cause nothings ever good enough)
