

# Shadow

Conrad Sewell

Even when the city's dark, baby  
I'll be underneath your feet  
Umm  
I'll be wherever you are, baby  
See what no one else can see  
I love to be your shadow  
Stand next to your fire  
Yea I love to be your shadow  
Oh, uh, with you all the time  
With you all the time I wanna go your way  
Every night, girl and every day  
When you're sleeping, or you're awake  
I love to be your shadow  
No need to be afraid  
Let you know girl, I'm here to stay  
I'll be there every step you take  
I love to be your shadow When you want me in your arms, baby  
I'll never be out of reach, oh  
When you wake up in the morning, baby  
With the sunrise in the east  
I love to be your shadow  
Umm  
Stand next to your fire  
Said I love to be your shadow  
Oh, uh, with you all the time I wanna go your way  
Every night, girl and every day  
When you're sleeping, or you're awake  
I love to be your shadow  
No need to be afraid, ho  
Let you know girl, I'm here to stay  
I'll be there every step you take  
I love to be your shadow I wanna go your way  
Every night, girl and every day  
When you're sleeping, or you're awake  
I love to be your shadow  
No need to be afraid  
Let you know girl, I'm here to stay  
I'll be there every step you take  
I love to be your shadow Oh, eh

With you all the time  
Umm, I love to be your shadow  
Ohh uh, with you all the time  
All the time, hey I wanna go your way, ho  
Every night, girl and every day  
When you're sleeping, or you're awake  
I love to be your shadow  
No need to be afraid  
Let you know girl, I'm here to stay  
I'll be there every step you take  
I love to be your shadow  
I wanna go your way, ho  
Every night, girl and every day  
When you're sleeping, or you're awake  
I love to be your shadow  
No need to be afraid  
Let you know girl, I'm here to stay  
I'll be there every step you take  
I love to be your shadow
