

Horticulturist

Mr Traumatik

My Oshy? Swiss Blue Cheese is worth more than 3 Grand,
If you wanna come and try and take my Cheese fam. (Try It)
I guess it isn't, arrest the Fucking Police man,
Tie 'em in the back and then set Fire to the Police van. (WOW)
I'm a Horticulturist, I love my Weed fam. (I Love It)
I get my seeds and, known from Greek man. (HA)
Grown organically I never do no cheap scams,
And if you try to rob me I will break both your knees fam!
BOOM SET!

My Lemon buds are from Netherlands and they grow with natural elements.
Organic, it's expensive, and you wonder why I'm not generous.
But I'm not malevolent or manipulative like Presidents.
My Cheese and Lemon is venomous and it's causing speech impediments.
I speak with revelance and I'm deep like quantum elements.
That's evidence of intelligence and I'm giving them lyrical elegance.
Indeed no hesitance stick booze in trunks like Elephants.
Smoke DMT and Weed in one Spliff when I'm conducting experiments.
My Lemon Haze is from Devon ways and it's harvest time in 11 days.
It's powerful like a weapon sprays and trust me you be well amazed.
Don't listen, let me just demonstrate smoke Lemon Haze and then celebrate.
I levitate and regenerate and then elevate up to Heaven's gate.??? celebrate and then penetrate,
I'll desecrate and I'll devastate any heavy weight I don't relegate.
(HEY DICKHEAD!)Run, go tell a mate, my lemon is sticky like sellotape.
I'm punctual, I'm never late, cus I teleport and I levitate.
When I die don't cry for me,
Cus I'll be in the next dimension.
Have fun and get high for me,
Just lead your life in the right direction.
Ascension's right for me,
and my third eye opens like dissection.
And it's always nice to see,
that vegetation in my Section.

My Grapefruit is from Bay route,
It's imported and then sorted into bags and then sold to their glute.

There's no escape route.

I just rolled a great zoot,

Coulda been Cheese or Widow,
or Coulda been bit of a tangerine reload,

Coulda been Psychosis or K2.

My number's 0 double 7, 9145682.

I'm giving them great news,

I'm giving them Lemon and Grapefruit.

Take 1, Take 2, you can even have a taste too.

But be careful cus my Weed is powerful,

It might make your mate spew.

WOW, that's s sick,

2 twenties, I don't do no tick

If you piss me off, in 2.50 you will be like "OH SHIT!"

and you don't know Shit!

But be careful cus my Weed is powerful,

just like a goalkick.

And if you don't notice my Lemon Cheese is Ebonese,

and my fridgy Black is Ebonese.

I'm intelligent, no special-needs.

I specialise in these remedies.

Herbal recipies and Natural healing energies

unvealing evil memories.

Okay does, I'll take 10 o' these.

When I die don't cry for me,

Cus I'll be in the next dimension.

Have fun and get high for me,

Just lead your life in the right direction.

Ascension's right for me,

and my third eye opens like dissection.

And it's always nice to see,

that vegetation in my Section.
