The World Loves Us and Is Our Bitch

Mclusky

You need some c-c-coke inspiration
For your s-s-seven year itch
She said it's just that your song's been playing too long
The world loves us and is our bitch, alrightHiding in the water
Under the sea
Under the water
We've got all the moneyHello
Hello
Hello
HelloYou need some c-c-condescension
For your-r-r elegant witch
She said it's just that your song's been playing too long
The world loves us and is our bitch, alrightHiding in the water
Under the sea
Under the water
We've got all the moneyHello
Hello
Hello
HelloSo accidents happen where the rain won't go
God is a color that we can't let go
And faith is admission that we just can't win
And we are just a part of this
We are just a part of thisRelatives matter when your legs don't work
KY, KY, STD
Alcohol matters when you can't be freeAnd love is eternal 'til it isn't anymore
Love is eternal 'til it isn't anymore
Love is eternal 'til it isn't anymore
Love is eternal 'til it isn't anymoreI try to cry but I'm just too tall
I've tried to cry but I'm just too tall
'Cos accidents happen where the rain won't go
Accidents happen where the rain won't go
