

# California Promises

**Jimmy Buffett**

Beneath the moonlit sky shadows walk beside the water  
Sad goodbye whispered on the shore  
Hear those wind chimes play they serenade the shadow lovers  
Ring and fade away like California promises  
I will never love another, wait for me, 'til I return  
But she never will he waits for her beside the water

Faithful still to California promises  
I will never love another, wait for me, 'til I return  
Though she never will he waits for her beside the water  
Faithful still to California promises
