

# So Long

Perry Blake

Every night and every day  
Comes a newly hatched decay  
Nothing ever satisfies  
Until you lose your appetite So long, so long baby baby  
So long, so long A feeling that will never die  
Kept a vigil by your side  
Helpless as the melting snow  
There are things that we will never know So long, so long baby baby  
So long, so long
