Every Time I'll be here right beside you
Cause you'll always be there for me too
Then I grab the bright hope on my hand
Dear my best friend with lots of loveFace the day with making through
Is always laugh with you
You're like my twin sister to me
There's nothing I can't share with you
So far things are going well
Always fight for what we believe
But whenever you feel emptiness
Remember you'll be all right becauseEvery time I'll be here right beside you
Cause you'll always be there for me too
Then I grab the bright hope on my hand
Dear my best friend with lots of loveI don't care what they say how they judge you
I only believe what I'm gonna believe
I glad the bright hope on my hand
I feel fearless do you feel the same?We don't stay we won't be scared
We won't fright alone in the dark
We don't stop we won't be afraid
I wish always be together you know?Mou muri dame da to kimi ni iu to
Ochiru tokoro made ochite miro to iu
Soshite sarigenaku soba ni ite kureru
Kotoba ni dekinu hodo
Deaete yokatta to nakete kuru waEvery time I'll be here right beside you
Cause you'll always be there for me too
Then I grab the bright hope on my hand
Dear my best friend with lots of loveKimi to... iru to... heiki...So far things are going well
Always fight for what we believe
But whenever you feel emptiness
Remember you'll be all right becauseEvery time I'll be here right beside you
Cause you'll always be there for me too
Then I grab the bright hope on my hand
Dear my best friend with lots of loveI don't care what they say how they judge you
I only believe what I'm gonna believe
I glad the bright hope on my hand
I feel fearless do you feel the same?We don't stay we won't be scared
We won't fright alone in the dark
We don't stop we won't be afraid
I wish always be together you know?
