Find a Way

Bayje

Im losin' track of time
But it's still moving by
With no control of it
Just seems so hard to leave
This part's supposed to be
The easiest thing [oh no]I don't know where to go
But I know this
I can't stay here no more
I got to leave[ohh woah]I've been searching to find
Find me a way out of here
I've been searching it blind
But deep in my mind I see it clear
The route to take me from all this
Turn left, keep straight, make a right
Tryin' to find a way out of here
There's got to be a wayI got a map to guide
Me to a place that I
Thought I would never find
But it's somewhere not far
Cause it's right in my heart
Been here the whole timeI dun know where to go
But I know this
I can't stay here no more
I got to leaveI've been searching to find
Find me a way out of here
I've been searching it blind
But deep in my mind I see it clear
The route to take me from all this
Turn left, keep straight, make a right
Tryin' to find a way out of here
There's got to be a wayWhen the problems I face won't go away
Still I stand strong
When the pressure's too much, I will stand up
And brush it offI've been searching to find
Find me a way out of here
I've been searching it blind
But deep in my mind I see it clear
The route to take me from all this
Turn left, keep straight, make a right

Tryin' to find a way out of here
There's got to be a wayI've been searching to find
Find me a way out of here
I've been searching it blind
But deep in my mind I see it clear
The route to take me from all this
Turn left, keep straight, make a right
Tryin' to find a way out of here
There's got to be a way
