All Up to You

[Donkeyboy](#)

You have to beat the time
But its running faster than you
I tried to heal but its way too real and I dont know what to do
The pictures on the wall
Have a memory that I cant explain
I tried to keep it away from me but I feel this anyway
I wanna be who you are but its you, not me
Time running by, too late to tryYou have to beat the time
But its running faster than you
Youre doing fine but its on your mind and you dont know what to do
You wake up late at night
With the sheet soaking wet from a dream
You way or fly almost all the time and its all because of me
I wanna be who you are but its you, not me
Time running by, too late to tryJust say, see the words
Im okay, but its you, not me
Time running by, too late to try
And for you I got time, I got plans, I got fire in my heart
I have all my faces on you
I hate this place and I see all the faces so bright
I guess that its all up to youI wanna be who you are but its you, not me
Time running by, too late to tryJust say, see the words
Im okay, but its you, not me
Time running by, too late to try
And for you I got time, I got plans, I got fire in my heart
I have all my faces on you
I hate this place and I see all the faces so bright
I guess that its all up to you
