Two Houses

Matthew West

Well mom found her a new place to live
And dad found him a new girlfriend
Looks like everybody's moving on

And it's hey look on the bright side kid
Now you've got two Christmases
And it's every other weekend from now on

Yeah, but all I want
Is the way it was

When love would always last forever
And families stayed together
Back to the day before two houses
When you held my hands when I was little
Before I got caught in the middle
Somewhere in between two houses
'Cause these two houses
Sure don't feel like home

Wide eyed wonder grows up fast
Trust is shy and nothing lasts
And I'm thinking maybe it was all my fault

And will I ever get back to
The innocence that I once knew
Before that summer turned into the fall

But when I close my eyes
I go back in time

When love would always last forever
And families stayed together
Back to the day before two houses
When they held my hands and I was little
Before I got caught in the middle
Somewhere in between two houses
'Cause these two houses
Sure don't feel like home

I heard about love that never leaves
So I'm asking you to show me
And talkin' to you down here on my knees
Feels like you've always known me

When love would always last forever
And families stayed together
Back to the day before two houses
You were holding my hand I was little
Before I got caught in the middle
Somewhere in between two houses
These two houses
These two houses

But tonight my heart has finally found a home
