Chaos vs order

Darkane

Agonized in undecaying gloom
Dispassionate, agonized, calamityThe mind is an ocean
Where chaos coincides with strict order
Sinking in a spiral the lowest
The lowest abyssAn infernal dominion
Built on annihilation
Subconscious sleep
No awakeningLook towards the future but not so far
Is that you can't see today
Look towards the future, stand above all
And set your spirit freeTransmigration to hysteria
Infinite mortification
Mass destruction, divine ignorance
No shelter in the soul's sanctuaryThe destiny to be aggrieved into abhorrence
Deathless dimensions of nausea
Diabolical evil from within
Results in mental immolationAgonized in undecaying gloom
Dispassionate, agonized, calamityLook towards the future but not so far
Is that you can't see today
Look towards the future, stand above all
And set your spirit free
