Watch That Grandad Go

Bauhaus

Im sitting tight, Im holding still

The flowers bite, the cobwebs still

We walk in file, we stand in line

The drug is in and we did notSince youve been so lonely

Pain will cease to tease you

Scars may not be ugly

A dolls leg fits around youWhy is everybody burning sky

Misfit plug and chicken pie

Walk in file and dance in line

Straightedge tango sequins shine The ground is steady, the stiff is stiff

The cobwebs torn, the tide is tired

Youre so alone, youre so awake

You wish, youd never been awakeThe knock goes off and the knock goes out

The city spills, theres a lover who screams

The sickness fills when the night gets tough

You wish, youd never been so so so skinnyWalk in line, dance in fileSicking all night and working all day

Spin with fright when youre finding no way

And the drums get dark in night or day

Sicking all night and working all daySee my granddad go

Walk in line, dance in fileWalk and dance in single file

Right up to the bread in here

Couldnt find the bread in thereWe couldnt find the bread

And we couldnt find the heart

And we worked so hard

We worked so heartbeat If I look up there, if I look a fool

If I look up there, if I look a foolJack went up the, Jack came down the

Jack and Jill went up the hill

Jack came flying down the still

Jack, whatre you doing jack?

I dont know, Im back, oh noI told you not to put on those trousers

Dont put on the trousers

Dont put on the trousers

Your dress is too starched

Its too starchedYou got a high class face today

You ought to have used nail polishLights out fast and sleep at night

Lights out fast and sleep at night

Turn the light out, get into bed

Cover yourself upYour head, your head

Your head, your head
