The Lucky Ones

Carlene Carter

We are the lucky ones, we know the truth Our daughters and sons just like us in our youth

Generations before us watch over from above

Filled us with faith and they showered us with loveMy girl's like her mama, loves with all her heart

And my son keeps me smilin' when life seems too hard

Lucky that we have their love 'cause some can only dream

So I never take for granted what I know means everythingWe are the lucky ones

We are the lucky onesWe are the lucky ones, we know the score

There's you and there's me and those fools at our door

They want what we have but they don't understand

It's a secret that keeps us still holdin' handsWe are the lucky ones

We are the lucky ones

We are the lucky ones

We are the lucky onesTime keeps on tickin' while we watch the clock

We learn from mistakes, yeah, we've been around the block

The way that this cruel world turns some upside down

It's amazing to me that we're still hangin' 'roundStrange as it seems I live my life like some sweet dream

One day I'm flying through the air, next I'm danglin' by a string

Tell me, am I walkin' on coals or treadin' on thin ice?

To have a little heaven here on earth, well, hell I'll pay the priceWe are the lucky ones

We are the lucky ones

We are the lucky ones

We are the lucky onesWe are the lucky ones

We are the lucky ones

We are the lucky ones

We are the lucky onesLucky ones, lucky ones

(We are the lucky ones)

Lucky ones, lucky ones

(We are the lucky ones)Lucky ones, lucky ones

(We are the lucky ones)

Lucky ones, lucky ones

(We are the lucky ones)

We are the lucky ones
