

# The Faraway Nearby

Cyndi Lauper

Out in the faraway nearby  
Can you hear my call?  
Out in the faraway nearby  
I'm breakin' down the walls  
Till you're here to stay  
Out from the faraway Hot looks, cold words  
Don't know what it is you heard  
But I didn't mean it  
If I said something wrong Short nights, long dreams  
Somethin' happens in between  
Then a weird feeling  
Like you're here but still you're gone Heart beats  
Like a knock on the door  
But it sounds so faraway In the faraway nearby  
Can your hear me call?  
Out in the faraway nearby  
I'm breakin' down the walls  
Till you're here to stay  
Out from the faraway Big whisper, small scream  
But it's not like what it seems  
Locked up in the open  
Don't know which way to go Deserts, oceans  
Leavin' footprints in the sand  
Hopin' that you'll see them  
And wishing you'd follow And walk with me hand in hand  
And talk to me, you got a plan  
And hold me, and hold me  
Don't stop Out in the faraway nearby  
Can you hear my call?  
Out in the faraway nearby  
I'm breakin' down the walls  
Till you're here to stay  
Out from the faraway Heart beats  
Like a knock on the door  
Back from the faraway In the faraway nearby  
Can you here me call?  
Out in the faraway
