

What?

Big D and the Kids Table

Pick it up

Your voice gets louder every week every week (what?)

Your voice gets louder every week (what, what?)

Your voice gets louder every week every week (what?)

Your voice gets louder every week (what, what?)

Your voice gets louder every week every week (what?)

Your voice gets louder every week (what, what?)

Your voice gets louder every week every week (what?)

Your voice gets louder every week Why don't you shut your face and give it a rest (fuck you)

Why don't you shut your face and give it a rest (you suck)

Why don't you shut your face and give it a rest (piss off)

Why don't you shut your face and blow it out your ass Pick it up

Your voice gets louder every week every week (what?)

Your voice gets louder every week (what, what?)

Your voice gets louder every week every week (what?)

Your voice gets louder every week (what, what?)

Your voice gets louder every week every week (what?)

Your voice gets louder every week (what, what?)

Your voice gets louder every week every week (what?)

Your voice gets louder every week Why don't you shut your face and give it a rest (fuck you)

Why don't you shut your face and give it a rest (piss off)

Why don't you shut your face and give it a rest (you suck)

Why don't you shut your face and blow it out your ass
