Morning Star

Mustasch

Sarah in the night
Light a lamp for me
Things have come so far
And I want you to see
Though I've travelled far
You and I will be
Together not apart
Deep inside of me
Cos you're the morning star
Sarah in the dark
Light a fire in me

You have lit a spark
And I want you to see
Though we've parted ways
Though you feel betrayed
Though the world surrounds you
And sometimes you feel afraid
We can work it out
Only if we try
Things have come so far
Between you and I
Cos you're the morning star
