

Then You Turn Away

Orchestral Manoeuvres In the Dark

I didn't want to see you
Not when you're at your best
And talk about the weather
I couldn't pass the test So many things I do
So many things I say
Give you, wrong idea So many things I do
So many things I say
Just make a fool of me Then you turn away
Then you turn away I couldn't help but call you
I waited almost all the week
I didn't want to hear you
Laughing aloud at me So many things I do
So many things I say
Give you, wrong idea So many things I do
So many things I say
Just make a fool of me Then you turn away
Then you turn away There's people saying that, "It's obvious
That I'm wasting my time on you"
And people saying that, "It's obvious
That I've fallen in love, it's not true" So many things I do
So many things I say
Give you, wrong idea So many things I do
So many things I say
Just make a fool of me Then you turn away
Then you turn away
