

Lost in You

The Royal Concept

I have waited for so long to find me
Someone there could reach down deep inside me
Never knowing hopping for that mystery
Then I saw you also picture perfect
That's when I knew we were bound to connect
It's not a dream I believe
I can touch you with my eyes
[chorus]Now I'm lost in you
Now I feel something so familiar
Lost in you
Love's so real

That's the day my heart stood still
I'm on a cloud that has a silver line in
In every way it feels like I'm flying
And I'm not worry everything is alright
I'm so happy anyone could notice

How is manille? is it any wonder?
I look at life from a different point of view
It's so much easier
[chorus](x2)
Down, don't turn off the light
Take me in your arms at night
I feel so alive I've been staying by your side
There's not mistaken
I'll be taking you over and over and over again
Down, don't turn off the light
Take me in your arms at night
I feel so alive I've been staying by your side (by your side)
There's not mistaken now
I'll be taking you over and over again
[chorus](x3)
Lost in you
That's the day my heart stood still
