Say It Ain't True

[Rod Stewart](#)

Look at all the problems that we've been through
How can you tell me that there's somebody new
I don't believe that I'm hearing this
I don't really think that you're seriousWell, you picked a fine time to hesitate
See it my way, I've nothing left
You can take my heart but don't steal my pride
Think it over before I'm pushed aside and tell meSay it ain't true
That's all you gotta do, baby
Say it ain't trueWell, I thought this one was bound to last
Together forever, oh, what a laugh
But it's gonna hurt when I set you free
I've been loving you too long, you're a part of me
So tell meSay it ain't true
Tell me, baby
Say it ain't truePut yourself in my place for a little while
Going out of fashion, growing out of style
No one to laugh with nobody to share
No one to lean on, nobody to care
Nothing left but a memory
I gave you my heart, so stay with me and tell meSay it ain't true
Say, say it ain't true
(Tell me, baby)
Say it ain't true
(I love you, baby)Say it ain't true
(I love you, baby)
Say it ain't true
(I just wanna do right by you, honey)
Say it ain't true
(Wouldn't do you no wrong)
Say it ain't true
