

Crip Hop

Snoop Dogg

I'm tired of that punk shit, where niggaz claim to done
Where they from and who run shit, I bang it to the tip-top
Can't stop, won't stop, droppin' gang bang hit rocks
To the last drip-drop, to the tick tock, to the blocks niggaz rip glocks
I'm knowin' that this shit hot, this your first introduction
To this motherfuckin' crip hopIt's time to research the documents and pull some files
and put it down with this gangsta style
'Cause I be seein' niggaz being more aggressive now
After peace treaty meetings and the weapons downSport Chucks 'member once it was Nikes and sandals
To me it's unlikely that you're sheisty and skanless
To manage this dramaticness I call my rep
Every step stay on deck keepin' bustaz in checkCertified murder guide through the streets of death
Where the sleep ya slip soon as ya weakness met
From that real killer deal get ya steal and mash
Niggaz have done did when the steel'll blastPockets filled with cash, fuck a Benz or Jag
Lookin' rough in a bucket, tuckin' tens and Macs
Dip roam, chip phones, flip and clock
Lick shots and the cops and control your blockKeep it true with the crew from the old to new
Ride providin' 'em with guidance like your 'sposed to do
Notice who, participatin' all the activity
That's how we livin G, strictly killer tendenciesSo death to all my enemies and to the homies
Who rest in peace, a dub bag and Hennessey
These weak niggaz killin' me with their proclivity
To even pro climate that they as real as meI'm tired of that punk shit, where niggaz claim to done
Where they from and who run shit, I bang it to the tip-top
Can't stop, won't stop, droppin' gang bang hit rocks
To the last drip-drop, to the tick tock, to the blocks niggaz rip glocks
I'm knowin' that this shit hot, this your first introduction
To this motherfuckin' crip hopYeah nigga this crip, crip, crip, talk shit and I'ma bust yo' lip
I'm gettin chips in the summer in a nine-six Hummer
In D.C., fuckin' with a breezy, easy, see we see all we can see
G.R. we can G, the East side family, coherent, cohesive, the co-pilotOn this East side shit 'cuz, I'm co-signin'
On the East fuck peace we ridin violent
Fuck where you been it's all about where I been
Sirens, gunshots, flood glocks get poppedWhen they all try to knock knock knock
Who is it? Visit the papers, the streets and the labels
We got the hottest shit burnin' on the turntables
I won't deny ya, I'm a straight rider and you don't wanna fuck with me
(Yeh, yeh)I'm tired of that punk shit, where niggaz claim to done

Where they from and who run shit, I bang it to the tip-top
Can't stop, won't stop, droppin' gang bang hit rocks
To the last drip-drop, to the tick tock, to the blocks niggaz rip glocks
I'm knowin' that this shit hot, this your first introduction

Written bill paid but still gotta be a slaveFlip your own money, make your own proper
Get yo' own heat, in case some niggaz try to stop ya
Be a boss hog about your money, float loc
