For Us

Alisan Porter

Alisan Porter - For us lyrics
Sell my soul to the devil
And leave my heart out to dry
That's what I have to do to get myself over you
Chorus
Cause we were partners in crime straight fast through an empty light fighting battles without you
Tear down these walls
Heal my bleeding heart
Love was just a game for us but two can play that hard
Hurt myself in a big way this just too much to take
One person should never feel this way my friend take everything I own leave me here with my broken palms feel
So set my soul on fire
And leave me up over night
To love to love is not enough for us
