

# Wild Mountain Honey

## Steve Miller Band

Ooh, mama  
Well look what's been done  
You can only see the stars  
After a setting sun You run for the money  
You don't even know about wild mountain honey Come on mama  
Heal this lonesome man  
Grow the tree of wholeness  
In this desert land Come on children  
Now learn how to run  
By heaven, the stars, the moon and the sun Come on papa  
Your end is the means  
Don't trade your love and goodness  
For the golden machine You run for the money  
You don't even know about wild mountain honey
