

# Netzwerk (Falls Like Rain) (Paris Blohm Remix)

## Klangkarussell

I look up to the sky above  
Full of sweet release  
From the days that I waste  
Trying to fight for space  
Well I know what my heart believes I won't run when the storm clouds come  
I won't turn away Cause if your eye's on the ground  
When the night comes down  
You only see the stars when they fall like rain  
Like rain  
Cause if your eye's on the ground  
When the night comes down  
You only see the stars when they fall like rain As we wait for the light to fade  
I keep asking why  
All those stones that we threw  
That the shadows grow  
And close every road we try I won't run when the storm clouds come  
I won't turn away Cause if your eye's on the ground  
When the night comes down  
You only see the stars when they fall like rain  
Like rain  
Cause if your eye's on the ground  
When the night comes down  
You only see the stars when they fall like rain I look up at the sky above  
Full of sweet release  
From the dreams that I chase  
Trying to find some face  
In a world that I don't believe, no I won't run when the storm clouds come  
I won't turn away Cause if your eye's on the ground  
When the night comes down  
You only see the stars when they fall like rain  
Like rain  
Cause if your eye's on the ground  
When the night comes down  
You only see the stars when they fall like rain  
Like rain, yeah  
You only see the stars when they fall like rain
