

# We've Arrived! (And to Prove It We're Here)

## The Rutles

We've arrived and to prove it we're here  
We've arrived and it's suddenly clear  
That we're here to stay for more than a day  
Maybe a week or a year We've arrived and to prove it we're here  
We've arrived and to prove it we're here  
We've arrived From thirty thousand feet above the ocean  
Flying high in the sky  
To thirty thousand fans showin' their devotion  
Hear them scream and cry We've arrived and to prove it we're here  
We've arrived and it's suddenly clear  
That we're here to stay more than a day  
Hey, maybe a week or a year We've arrived and to prove it we're here  
We've arrived and to prove it we're here  
We've arrived and to prove it we're here  
We've arrived and to prove it we're here We've arrived
