

Are You Leading Me On?

General Public

Say you'll be there
I'll change my clothes and wash my hair
Say that you might
I'd sit outside your door all night
Quiet as a mouse
Say yes and I'll go to our mom's house
If you say you care
I'll go to the foot of our stairs But are you leading on me on
Or is there something behind it?
Well I don't know but I mean to find out
Is there something you're hiding?
Oh, are you leading me on?
Look are you having me at it?
Well, I don't know but I mean to find out
Come on, are you, are you, are you leading me on? Misgive or mistake?
Misbehaving like it's going out of date
Say "thanks a lot" (thank you very much, you beat me to the early touch) But are you leading on me on
Or is there something behind it?
I don't know but I mean to find out
Is there something you're hiding
Oh, oh, are you leading me on
Look are you having me at it?
Well I don't know but I mean to find out
Come on, are you, are you, are you leading me on? One look, had to take a stop
Especially designed to make your shoe heel pop
Your will is strong enough to make me change my mind
'Cause when I'm next to you it kinda grab me from behind
Some of dem will tell you dat dem have another guy
And some of dem will tell you pure lies
If your momma gone away and your mind gone astray
Remember what the wise guys say (Look are you leading on me on?)
I don't know but I mean to find out
Come on, come on, come on) Oh-oh-oh, say you'll be there
I'll change my clothes and wash my hair
Say that you might
I'd sit outside your door all night
Quiet like a mouse
Say yes and I'll go to our mom's house
If you say you care, oh

I'll go to the foot of our stairs
But are you leading on me on
Or is there something behind it?
I don't know but I mean to find out
Is there something you're hiding?
Oh-oh-oh, are you leading me on
Look are you having me at it?
Well I don't know but I mean to find out
Come on, are you leading me on, John?
