

Necropolis

Subvision

This is necropolis
A cesspool of syphilis
You're in a ghosttown in despair
You see shapes but no ones there

Baby even though you just want to live
Maybe you do have a lot to give
Mind you that we are all the same

'Tis the city of the living dead
So get your dreams of living out of your head
This is the city of the living dead

Made your escape from a village blind
Just couldn't breath with a narrow mind
But you're in a ghosttown in despair
You see shapes but no ones there

Honey in the midst of your sanctuary
A funny stank of a mortuary
Mind you that we are all to blame

'Tis the city of the living dead
So get your dreams of living out of your head
This is the city of the living dead

'Tis the city of the living dead
So get your dreams of living out of your head
This is the city of the living dead
