

Eyes Of A Child

Naked Eyes

You think you're so sophisticated
With your lady-like ways
Your life is so complicated
Do you remember the days?
Looking through You're looking through the eyes of a child
You see what you believe.
Through the eyes of a child
You see what you believe. I remember all the things you hated
All the two-faced lies
The people that smiled and cheated
Looking back on your life
You're looking through You're looking through the eyes of a child
You see what you believe.
Through the eyes of a child
You see what you believe. Act like a lady
Subscribe to all the magazines
Cry like a baby
At all that you have seen Through the eyes of a child You think you're so sophisticated
With your lady-like ways
Your life is so complicated
Do you remember the days?
Looking through You're looking through the eyes of a child
You see what you believe.
Through the eyes of a child
You see what you believe.
Through the eyes of a child
You see what you believe.
Through the eyes of a child
You see what you believe.
Through the eyes of a child
You see what you believe.
Through the eyes of a child Through the eyes of a child
