

Shot Fox

Alpine

Wondering why, I'm feeling so sad

I got love and safety in?

I'm a first world problem waiting to explode

And when you're gone the world seems brighter

And when your heart beats, mine beats faster

And when you're gone the world seems brighter

And when your heart beats, mine beats faster??

I don't know why

It must be mad

Spent too much time looking in my head

There is a sky there is a ground, it's us

And when you're gone the world seems brighter

And when your heart beats, mine beats faster

And when you're gone the world seems brighter

And when your heart beats, mine beats faster??

When you fall in love with me

That'll mean safety

Will you throw my phone away?

Stick around

When you're gone

When you're gone

When you're gone

When you're gone

And when you're gone the world seems brighter

And when your heart beats, mine beats faster

And when you're gone the world seems brighter

And when your heart beats, mine beats faster

When I saw you

When I saw you

When I saw you

When I saw you
