

Will You Be Ready

Cas Haley

How does it feel?
To know you're the one?
To lift up the veil
And shine like the sun

You got what you need
So don't be afraid
The basic geometry
Is written on your face

Will you be ready when it's your time (x2)

Out in the world
Painting your soul
Climbing those mountains
Digging them holes

Hoping you'll rise
Oh, and see what's ahead
Take responsibility
For the life that you've led

Will you be ready when it's your time (x2)

[SOLO]

At the end of your story
What will you say?
What did you give?
What did you take?

Remember this moment
Oh, it's all that we have
The pain and the pleasure
The good and the bad

Will you be ready when it's your time (x4)

Oh, will you be ready?
