

Acropolis

BZN

Is it something I can see
Is it something I can touch
Is it something I can feel Is it something I can hear
Is it something I can smell
Is it something I can trust
Yeah Before the surface dries out
Before the palace burns down
Before your world is overwhelmed
Before the surface dries out
Before the palace burns down
Before your world is overwhelmed Is it something I can do
Is it something I can learn
Is it something I can find Is it something I can fix
Is it something I can solve
Is it something I can prove Before the surface dries out
Before the palace burns down
Before your world is overwhelmed
Before the surface dries out
Before the palace burns down
Before your world is overwhelmed You scream out
I hear that
Our time is running out so fast
Wings burning
I'm fallin'
Our time is running out so fast Is it something I can see
Is it something I can touch
Is it something I can feel Is it something I can hear
Is it something I can smell
Is it something I can trust
Yeah Before the surface dries out
Before the palace burns down
Before your world is overwhelmed
Before the surface dries out
Before the palace burns down
Before your world is overwhelmed You scream out
I hear that
Our time is running out so fast
Wings burning
I'm fallin'

Our time is running out so fast
