Misery Loves My Company

Three Days Grace

I am in control
I haven?t lost my mind
I?m picking up the pieces of the past you left behind
I don?t need your condescending
Words about me, looking lonely
I don?t need your arms to hold me
?Cause misery is waiting on me
I am not alone
Not beating down just yet
I am not afraid
Of the voices in my head
Down the darkest road
Something follows me
I am not alone
?Cause misery loves my company
(Misery loves my company)
Leave me in the cold
You?d better run away
Gonna dig a hole
And bury all the memories we?ve made
I don?t need your condescending

Words about me, looking lonely
I don?t need your arms to hold me
?Cause misery is waiting on me
I am not alone
Not beating down just yet
I am not afraid
Of the voices in my head
Down the darkest road
Something follows me
I am not alone
?Cause misery loves my company
(Misery loves my company)
I am not alone
Not beating down just yet
I am not afraid
Of the voices in my head
Down the darkest road

Something follows me
I am not alone
?Cause misery loves my company
(Misery loves my company)
