

# Lost Years

## Suicide City

I've lost years  
You're not a beautiful person  
no healthy mind no sweet little thing  
no prize for the lies you're not human

I've lost years everyday for too long  
I've lost years everyday our past is gone

You're not the best friend to have  
or my companion let go of my life  
free me again help never comes

I've lost years everyday for too long  
I've lost years everyday our past has gone

Free me again help never comes

---
