

# Sha La La

## Al Green - Al Green Greatest Hits

(akinyele)

You can't

You won't

Ak-nel

You can't

You won't

(curly) refrain

Something is what you meet standing up on the corner

Lay out

And when you think of my spliff

You think something has come over

Lay out

I say

Here I am what I'm going to do

Yes I've got these dreams to come true

And the way you embrace me

It makes me want to crossover

Lay out

(curly) 2x

Sha la la la (la la la)

La la la (la la la)

La la la (la la la)

(akinyele)

Ha it's the hardcore rhymers

Straightening niggas out like recliners

You dicks get sprayed like stun

I use your blood to paint the walls like period vagina

Remind us

Of signers

When we busting you up

Bullets like allergies

Straight stuffin you up

Can I touch any he or she that try to diss this

Once I clutch the grammy in my hand like stick shift

Or professor

I'm putting niggas in a stretcher

Tell your crew

I play them boys ou like fucking Hugh Hefner

It ain't nothing

My guns part authority  
Cause they be busting  
I could feel or catch a wreck like your part buttons  
    (curly) hook  
    (2x)  
    Cause were rough  
    Were rough  
    Tough

    Were tough  
We are danger (danger straight dangerous)  
    (2x)  
    Sha la la la (la la la )  
    La la la (la la la)  
    La la la (la la la)  
    (akinyele)  
    When it's dark  
    It's the (?) parts  
    That I be walking in  
    Be clocking you and dropping you  
        Like dr. kevorkian  
        My hobby is to hit you  
        With guns in the hand  
        In my left  
    Putting bullets in your chest  
        Like bobby fisher  
        I wish a  
        Nigga  
    Want to contest this  
    Wet you up like star water  
        You fellas is fish  
    Trying to go up again  
    To fall from an intense nigga  
        To stab you with a dagger  
        Reagardless if you stagger  
    I still going to jab you with the marvelous (?)  
        Like agler  
        Making your ass fall like niagara  
        My trigger finger that damage  
        Advantaged niggas  
        Like abracadabra  
        What  
        The ak  
        The glock nine  
    Making niggas slow down and what not

Similar to stop signs  
Money and crimes  
On my mind  
I murder silly jokes  
For they choke  
And all you ever find  
Is their body outlined  
In white lines  
Hook  
Refrain  
Hook
