Together

Caleb Lovely

What if I told you I can't live another day without you?
Shame on me for being scared
Shame on you for being comfortable
All I really know is we're far away everyday
I don't want to live it no more
I can sit in my room all alone on the phone
and I can't stand to miss you anymoreLets just say that I miss you, I love you, I wish I was with you and not dreaming alone tonight.
I swear we should get us together and fight through the weather
and nothings gonna matter cause we'd be together, yeahhLets pack our bags and leave
get the heck out of dodge, we have what we need
Don't it make you sad to think of all the people living life without love
We're the lucky ones who found it so young
kick and scream we got it for keeps
Lets cut the miles out from anything in between so we don't ever have to miss a thing.Let's just say that I miss you, I love you, I wish I was with you, and not dreaming alone tonight.
I swear we should get us together and fight through the weather and nothings gonna matter cause we'd be together.I miss you, I love you, I wish I was with you, and not dreaming alone tonight.
I swear we should get us together and fight through the weather and nothings gonna matter cause we'd be together, yeahh.I know when our heads start spinning and our hearts start falling apart
you know what I felt from the start
won't you pick me up, won't you keep me up before dawn
because I'm leaving in the morning,
this time I'm taking you with me,
I'm taking you with me,
I'm taking you with me,
I'm taking you with me
I'm taking you with meThen you'll see that you miss me, you love me, you're finally with me when I'm dreaming alone tonight.
Now that we got us together we'll sail through the weather and nothings gonna matter 'cause we're doing this together, yeahhWe don't have to spend another day far away
We don't have to spend another day far away
We don't have to spend another day far away
