

# Until We Die

## Gentle Bones

She's been slipping back and forth,  
talking to the trees when everything was simple as it is  
Control yourself my darling, hold in the cheer,  
just a little bit further and we'll be hereSettle down my friend, we're inching closer,  
reach your hand out to the finish line  
This will soon be over, it'll be paradise next,  
its our paradise next(and) Darling we will sing until we die,  
we'll never waste these tears on fears and cries  
and now the world is ours to take  
and every single move is ours to makeWe'll call me crazy but I think we made it,  
I think we've done what we came to do  
It's a slight bit far fetched, but the end is near,  
the peak is nearing for us to peerGo and have your doubts,  
we've been through this before, yes  
For this will soon be over, it'll be paradise next,  
its our paradise next(and) Darling we will sing until we die,  
we'll never waste these tears on fears and cries  
and now the world is ours to take  
and every single move is ours to makeEchoes they scream their very own name at the top of their lungs  
But we'll run on by though we know that there's nobody there  
And for the very first time we'd smile
