

# Virgin

## Chico DeBarge

I know this is a precious time for you, shortie  
But you're in good hands, baby, check it, baby

Just for the taste of it, I'd give my whole life, shortie  
Just for the smell of it, I smelled it, it was right, baby  
Just for the touch of it, I'd make you my wife, shortie  
Just for the love of it, I'd love it all night

'Cause baby, you're a virgin  
Sweeter than candy from the candy store  
And I don't want you hurtin'  
'Cause you ain't never been with a man before

Oh, got my eyes on you and you will see why soon  
I'm 'bout to make my move, so what you gonna do  
And baby when we're done, you gonna be my boo  
Before the night is through, I'll get your number too

Just for the taste of it, I'd give my whole life, shortie  
Just for the smell of it, I smelled it, it was right, baby  
Just for the touch of it, I'd make you my wife, shortie  
Just for the love of it, I'd love it all night

Baby, you're so delicate like threads in a garment  
More intricate than a rose in a garden  
You're too young to be alone, baby  
Too fine to be fine, shortie, but you're mine, shortie

And if your friends don't like me  
Well, then they don't gotta like me, yeah  
And if your father really hates me  
Wait till you're carrying my baby

Just for the taste of it, I'd give my whole life, shortie  
Just for the smell of it, I smelled it, it was right, baby  
Just for the touch of it, I'd make you my wife, shortie  
Just for the love of it, I'd do it all night

Before the night is done, I'm givin' you a son  
Our bodies will be one as passion wildly run

My tongue between your lips, can you get with this?  
We cuddle when I kiss and you will be my miss

Word is bond  
Word is bond baby  
Put me on, put me on, babe  
Put me on, oh babe

Just for the taste of it, I'd give my whole life, shortie  
Just for the smell of it, I smelled it, you was right, baby  
Just for the touch of it, I'd make you my wife, shortie, my wife  
Just for the love of it, I'd love it all night

Now turn on, baby, put me on, babe  
Word is bond  
Turn on, baby, turn on, baby  
You're the Miss for me, shortie

You're just my type and lovin', baby  
Just how you like, baby  
Everything and every dream, baby, baby, ohh, baby, oh, baby  
A whole life, baby

Just for the smell of it, I smelled it, you was right, baby  
Just for the touch of it, I'd make you my wife, baby  
Just for the love of it
