

# Fight for Your Castle

Don Brownrigg

if we had it our way  
you'd come to our home to make yours  
the moat as the ocean  
our dreams the oars  
fight for the kingdom boys  
maybe one day we'll make it home  
fight for your castle  
make your home  
what sets us aside  
besides that god damned Cabot strait  
is what keeps me alive  
and what makes me wait  
for money or love  
or whatever's sent from above  
at least i'm something  
from someone else  
and that keeps me alive and that makes me wait  
it keep me alive and makes me wait  
it keeps me alive  
and makes me wait  
my mama said you go and work for your money, son  
but more for yourself  
you take that and you run  
make your money son, but love yourself  
and that keeps me alive and makes me wait  
it keeps me alive  
and me wait  
it keeps me alive  
and makes me wait  
from a green little acre  
from the valley of the wind  
to the places i'll go  
and the ones i've been  
i'll fight the kingdom  
wherever i might roam  
and i'll for my castle  
i'll make a home  
fight for your castle  
make your home

but fight for the kingdom  
make it home  
fight for the kingdom, make it home  
fight for the kingdom, boys, make it home  
fight for kingdom  
make it home
