Priceless

The Jealous Sound

Concentrate, don't you know
These are the days that leave you empty
They're leaving you cold
And say to me, as we grow old
These are the days that last forever
Never let it goAnd I braved what I could
And I stand where you stood
And I never breathed a wordAnd I could pray you'd never leave
This constant ache, I do believe
Reach down and deliver it
And swear to me now ever since
I hold my side, you're not convinced
And I'm told it's deliberateAnd I braved what I could
And I stand where you stood
And leave, please watch
Please watch over meI thought this day would never come
Dealing with the sad one
And I stay away, I'm deaf and dumb
We're tellin' everyone, "Oh God, it's priceless"I thought this day would never come
Dealing with the sad one
And I stay away, I'm deaf and dumb
Tellin' everyone, "Oh God, it's priceless"And I braved what I could
And I stand where you stood
And leave, please watch
Please watch over meAnd I thought this day would never come
Dealing with the sad one
And I stay away, I'm deaf and dumb
We're tellin' everyone, "Oh God, it's priceless"I thought this day would never come
We're dealing with the sad one
And I stay away, I'm deaf and dumb
Tellin' everyone, "Oh God, it's priceless"And I never breathed a word
And I never breathed a word
And I never breathed a word
